

2021-12-30 SPX DC > Receive Mgt > single receive 使用packaging收货报错

Jira	<div><div><div></div></div><div>SPXFM-24313</div></div>
处理人	meimei.xu@shopee.com
问题描述	DC站点：Receive Mgt > Single Receive 使用packaging收货报错
问题原因	SPXFM-16182 需求，对系统蓝色主题部分迁移到ssc-ui-vue组件库中，设置配置没有生效，导致接口传参由id变成了label，接口报错
修复MR	fms-admin: https://git.garena.com/shopee/bg-logistics/spx/frontend/fms-admin/-/merge_requests/652 slps-admin: https://git.garena.com/shopee/bg-logistics/spx/slps/slps-admin/-/merge_requests/149
回归测试情况	<div>影响范围判断：single receive时使用packaging收货才会受影响。代码修复改动小，只需配置正常取值字段</div> <div><div><div><div>146</div><div>146</div><div></div><div>:true-value="item.value"</div></div><div><div>147</div><div>147</div><div></div><div>false-value=""</div></div><div><div>148</div><div></div><div>-</div><div>:label="item.label"</div></div><div><div>149</div><div></div><div>-</div><div>/></div></div><div><div></div><div>148</div><div>+</div><div>:label="item.value"</div></div><div><div></div><div>149</div><div>+</div><div>></div></div><div><div></div><div>150</div><div>+</div><div>{{ item.label }}</div></div><div><div></div><div>151</div><div>+</div><div></s-radio></div></div><div><div>150</div><div>152</div><div></div><div></s-radio-group></div></div></div></div> <div>回归用例：</div> <div>1.DC signle receive 使用 packaging收货，接口不报错，能正常进行</div> <div>回归结果：通过</div>

问题复盘总结	<div>【研发自测】</div> <div>1、针对大需求改动，需要仔细确认评估每个改动点的风险，做好总结记录，方便回归查看。</div> <div>2、针对组件替换/逻辑变更的地方，制定完整的自测用例，依照自测用例严格执行，并且做好文档记录。</div>
